

PRO-NET Hands Over EVs to Ministry of Transport Malaysia, Supporting Low Carbon Mobility Blueprint

Advancing Malaysia's Low Carbon Mobility Blueprint 2021–2030

Putrajaya, 26 August 2025 - PRO-NET, the distributor of Proton e.MAS and smart Malaysia vehicles, officially handed over a fleet of electric vehicles (EVs) to the Ministry of Transport (MOT) Malaysia today. This initiative is in line with the Low Carbon Mobility Blueprint (LCMB) 2021–2030 and demonstrates PRO-NET's commitment to supporting Malaysia's transition to sustainable transportation.

The ceremony, held at the MOT headquarters in Putrajaya, was attended by the Honourable Minister of Transport, YB Anthony Loke, alongside representatives from PRO-NET. Other automotive brands also participated in this initiative. The event featured two key activities: the Majlis Pelancaran Bulan Kebangsaan Kementerian Pengangkutan & Sambutan Ulang Tahun Perbadanan Aset Keretapi (RAC) ke-33, and the Simbolik Penyerahan Kenderaan EV kepada Kementerian Pengangkutan dan Kempen Kibar Jalur Gemilang Kementerian Pengangkutan.

The EV fleet provided by PRO-NET, which includes Malaysia's No.1 EV, the Proton e.MAS 7, alongside the smart #1 and smart #3, gives government stakeholders hands-on experience to explore vehicle performance, range, and the potential of EV technology. This initiative is a significant step towards achieving Malaysia's target of 15% electrified vehicle adoption by 2030 and helps decision-makers gain a clearer understanding of the benefits and challenges of EV adoption, supporting the development of effective policies, infrastructure planning, and long-term strategies that benefit all Malaysians.

Mr. Zhang Qiang, Chief Executive Officer of PRO-NET, said, "This collaboration exemplifies our commitment to driving Malaysia's transition towards sustainable mobility. By empowering government agencies with firsthand experience of Proton e.MAS and smart vehicles, we are fostering a deeper understanding and readiness for the electrified future."

The EV handover is a clear demonstration of PRO-NET's commitment to fully support Malaysia's EV transition. PRO-NET remains committed to supporting the government's efforts in promoting sustainable transportation and advancing the nation's low-carbon mobility agenda.

- The End -

About Proton New Energy Technology Sdn Bhd

Incorporated on 16 August 2022, we are a wholly-owned subsidiary of Perusahaan Otomobil Nasional Sdn Bhd. We are the exclusive distributor of Proton e.MAS vehicles in Malaysia, as well as the smart brand. Our mission is to become the leader in the new energy ecosystem for automotive solutions. Our business scope includes the distribution of New Energy Vehicles (NEVs), provision of EV charging solutions, supply of electronic parts and mobility solutions, and retailing of accessories and merchandise.
