

Proton e.MAS Supports Government EV Initiative with Handover of e.MAS 5, and e.MAS 7 to Ministry of Transport

PUTRAJAYA, 12 March 2026 – PRO-NET, a wholly-owned subsidiary of PROTON, delivered three electric vehicles, the Proton e.MAS 7, Proton e.MAS 5, Proton e.MAS 7 PHEV and smart #1 to the Ministry of Transport (MOT) as part of a government-led initiative to evaluate electric vehicles for official use.

The handover took place during the “Majlis Penyerahan Kenderaan EV kepada Kementerian Pengangkutan” ceremony held at the MOT headquarters, Putrajaya on 11 March 2026.

The initiative follows the official launch ceremony held on 26 August 2025 ago, where multiple automotive brands pledged support for the Ministry’s programme to introduce EVs into its operational evaluation fleet. Through this programme, government stakeholders will experience EV technology firsthand while assessing its practicality, performance and suitability for daily operations.

Dato’ Ir Abdul Rashid Musa, Deputy Chief Executive Officer of PROTON said the initiative reflects the company’s commitment to supporting the government’s efforts to accelerate Malaysia’s transition towards sustainable mobility. “We are honoured to support the Ministry of Transport in this initiative by providing the Proton e.MAS 5, e.MAS 7, e.MAS 7 PHEV and smart #1 for evaluation. Initiatives like this allow stakeholders to experience EV technology firsthand, which plays an important role in shaping policies, infrastructure development and the broader adoption of electric mobility in Malaysia.”

“As Malaysia’s No.1 EV brand, Proton is proud to contribute to the initiative with the Proton e.MAS 5, Proton e.MAS 7 and Proton e.MAS 7 PHEV further supporting the country’s growing EV ecosystem.” he added.

The delivery of the vehicles further demonstrates PRO-NET’s commitment to working closely with government agencies and industry partners to support Malaysia’s transition towards a low carbon mobility future.
